

Client Relationship Summary

AllGen Financial Advisors, Inc. is an investment advisor registered with the United States Securities and Exchange Commission.

There are different ways you can get help with your investments. You should carefully consider which types of accounts and services are right for you. Free and simple tools are available for you to research firms and financial professionals at [Investor.gov/CRS](https://www.investor.gov/CRS), which also provides educational materials about broker-dealers, investment advisors and investing.

Investment advisory and brokerage service fees differ, and it is important for you to understand the differences. This document gives you a summary of **how we will interact with you** as an investment advisor, as opposed to a brokerage relationship, and how **you** will pay for our service.

What investment services and advice can you provide me?

We offer investment services to you based on a **fiduciary relationship** of trust and confidence for the entire length and scope of our engagement.

Our services include:

- Portfolio Management
- Business Planning
- Financial Planning
- General Consulting

We are a **fee-based** advisory firm focused on helping you achieve your financial expectations. All investment services begin with an Investment Policy Statement to identify your risk profile and parameters in which to manage your portfolio.

Portfolio Management

Portfolio management is **offered on a discretionary basis**. Our discretionary authority is limited to managing your portfolio in alignment with your Investment Policy Statement or to fulfill disbursement requests. We do not focus our advice and management to a limited menu of investment products (i.e., proprietary investments or types of securities products) for your managed account. We **do not** have any minimum initial investment requirement to establish a portfolio management account. Your portfolio assets will be monitored and reviewed on an ongoing basis to ensure your objectives are being met based on your IPS. Meetings to discuss your management portfolio can occur anytime.

Financial Planning

The objective of the financial plan we create is to project a future outcome based on the sound financial strategies we implement today. We will work closely with you to keep you focused on where you want to go, advise you on how best to get there, and remind you to stay disciplined to achieve your financial goals.

Business Planning

Business and corporate planning involves formulating and implementing decisions about the company's present and future direction to guide with day-to-day organizational choices, provide measurement tools to evaluate progress, and planning to understand business cycles designed preserving a positive cash flow.

General Consulting

General consulting services are independent of any and all of other advisory services. Under this arrangement, we do not provide any on-going portfolio management, financial or business planning. This is a limited-scope engagement focused on a specific financial need.

You can find more detailed information about the services we offer in our Disclosure Brochure under Item 4, "Advisory Business."

What fees will I pay?

For Portfolio Management

You will pay an ongoing **asset-based fee**.

The management fee will be based on a percentage of the value of the assets in your portfolio account. The management fee is calculated by taking the aggregate fair market value of your portfolio assets multiplied by one-fourth the corresponding annual fee rate. The fee will be billed on a calendar quarter in advance. In addition, separate from our management fee, you will incur other costs associated with your managed account that include, but are not limited to, mutual fund fees, and transactional fees.

You should consider...

The annual fee rate you pay will reduce when your portfolio value, either through additional deposits or asset growth, moves into a different tier bracket of our fee schedule; however, regardless of the fee breaks we offer, the more assets there are in your managed portfolio account, the more you will pay in fees, and we may therefore have an incentive to encourage you to increase the amount of assets in your account.

You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying.

Questions You Should Ask

Given my financial situation, should I choose an investment advisory service? Why or why not?

How will you choose investments to recommend to me?

What is your relevant experience, including your licenses, education and other qualifications? What do these qualifications mean?

Questions You Should Ask

Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?

Client Relationship Summary

For Financial/Business Planning

You will pay a **flat fee**.

For financial/business planning, your financial concerns will be addressed in a financial/business plan, with action points, designed to take you from where you currently are financially, to where you want to be at some point in the future. You have the option on payment; all upfront or a monthly payment option.

For General Consulting

You will pay an **hourly-based fee**.

For general consulting, consulting services are independent of our portfolio management and financial/business planning services. Fees will be itemized in a billing statement or consulting agreement and due at upon completion of the engagement.

You should consider...

Implementation of a financial/business plan or recommendations made from general consulting can cause you to incur other fees related and/or unrelated to our advisory practice. These costs can come from: estate planning attorneys, life insurance agents, registered representatives, or from other industry professionals.

A conflict of interest can potentially occur when we make recommendations in a financial/business plan or with our general consulting. This can create a situation of divided loyalty and the objectivity of the advice rendered could be subjective and create a disadvantage to you.

You can find more detailed information about the fees we charge in our Disclosure Brochure under Item 5, "Fees & Compensation."

What are your legal obligations to me when acting as my investment advisor? How else does your firm make money and what conflicts of interest do you have?

When we act as your investment advisor, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interest. You should understand and ask us about these conflicts because they can affect the investment advice we provide you. Here are some examples to help you understand what this means.

Sometimes our interest conflict with yours. This means advice that results in extra income for us is not the best for you:

- **Because we receive asset-based fees, we have an incentive to** – maximize the amount of money you invest with us.
- **Because we can recommend outside parties in a financial/business plan or with general consulting** – we have the potential to earn commissions (i.e., life insurance sales) and benefit from referrals to other professionals that can, in turn, refer potential new business to us.

You can find more detailed information about our potential conflicts of interest in our Disclosure Brochure under Item 10, "Other Financial Industry Activities & Affiliations" and under Item 14, "Client Referrals & other Compensation."

Questions You Should Ask

How might your conflicts of interest affect me, and how will you address them?

How do your financial professionals make money?

Our financial professionals are compensated from the revenues we earn from the **asset-based fees, flat fees** and/or **hourly-based fees** you pay for our advisory services.

Do you or your financial professionals have legal or disciplinary history?

No.

Visit Investor.gov/CRS for a free, simple search tool to research us and financial professionals.

Questions You Should Ask

As a financial professional, do you have any disciplinary history? For what type of conduct?

Additional Information.

You can find additional information about our investment advisory services at www.allgenfinancial.com. You can also contact us at the address and phone number listed below to request up-to-date information on our firm and request a copy of the Client Relationship Summary.
